I would like to thank the Mahoning Township Police Department for their professionalism today.

During a planned protest at Geisinger in Danville they kept watch not only to make sure the protestors stayed off the road, but to also make sure no one gave them any trouble.

While the police were neutral on the matter and were not taking sides it was nice to see them upholding the rights for freedom of assembly and speech and making sure everyone was safe while they did.

On the Danville police department Facebook page before the event even happened they also gave a warning about where not to park and also said

“We appreciate everyone's right to gather and air their grievances, however EVERYBODY's rights must be protected.”
